SUMMARY

Self-driven, detail-oriented problem-solver with strong communication skills and a passion for learning. Eager to bring creativity, attention to detail and previous business experience to an entry-level programming role.

TECHNICAL SKILLS

Java | HTML | CSS | JavaScript | Spring Boot | Vue.js | JDBC | Table Design | SQL | PostgreSQL | E/R diagrams | Agile | Unit Testing (JUnit) | Integration Testing | Git | IntelliJ

TECHNICAL EXPERIENCE

Module 3 Capstone: Car Repair Tracker

Collaborated on the creation of Manic Mechanic Car Repair Tracker, a full-stack application that digitalizes and streamlines customer-relationship management for automotive service providers

Module 2 Capstone: Funds-Transfer App

Designed a RESTful API server and command-line application in Java (IntelliJ) and pgAdmin that enables users to send/request funds electronically and view their account balances and transfer histories

Module 1 Capstone: Vending-Machine App

Collaborated on a command-line application developed in Java (IntelliJ) using OOP fundamentals and file.io that displays inventory/stock from a file and accepts user input for depositing money and making a purchase
